Introduction

Since 1977, SubLOGIC has been committed to the goal of providing our customers with the very best in simulation software.

We hope you'll agree that we've attained that goal. From Flight Simulator, to Jet, to Night Mission Pinball, our software products are the most realistic and sophisticated simulations available. And we'd like to thank you for making the various computer versions of Flight Simulator the best-selling entertainment software package of all time.

Now as we enter our second decade of software development, we'd like to reaffirm our commitment to the creation of new state-of-the-art simulations for all of the most popular computer systems. Please feel free to contact us with any comments or suggestions you may have concerning our software products. If you have any questions, problems, frustrations, or feel like you're getting the runaround in your dealings with SubLOGIC, please contact the office of Stu Moment, Chairman, and let him know about them. We want and appreciate your feedback. To obtain more information about any SubLOGIC product, please call (800) 637-4983. In Illinois, call (217) 359-8482.

FLIGHT SIMULATOR II

\$49.95

APPLE II: 48K memory required.

Joystick optional

COMMODORE 64/128: Joystick

optional

ATARI 800/XL/XE: 48K memory.

Joystick optional

Apple II

Commodore 64/128

Put yourself in the pilot's seat of a Piper 181 Cherokee Archer and head for the skies! Extensive flight controls and instrumentation appropriate for both visual and instrument flight are included. High speed color-filled 3D graphics provide a spectacular panoramic view as you practice takeoffs, landings, and aerobatics. Flight Simulator II includes over 80 airports in four different scenery areas, full flight instrumentation with avionics, complete documentation, and a "World War I Ace" aerial battle game.

Detailed Product description brochure available. Call (800)637-4983

FLIGHT SIMULATOR II

\$49.95

ATARI ST: Joystick optional

AMIGA: 512K memory.

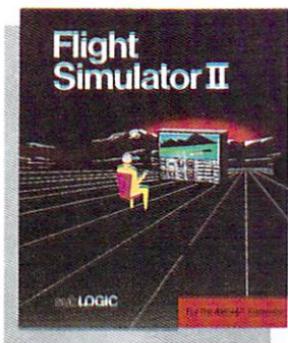

Joystick optional

Atari ST

Atari ST-Multiple Windows

Flight Simulator II for the ST and Amiga computers lets you fly either a Cessna 182 or a Gates Learjet. Over 130 airports are available in five different scenery areas. The program supports simultaneous multiple window views, and provides three different external views of the aircraft. A special multi-player option lets two or more players connect their machines together, via modem port connectors, and fly together through the same airspace.

Detailed product description brochure available. Call (800)637-4983

JET

Apple II - \$39.95
C64/128 - \$39.95
IBM - \$49.95

APPLE II: 64K memory required.

Joystick optional

COMMODORE 64/128: Joystick optional

IBM PC and compatibles: 128K memory, CGA card or equivalent.

Joystick optional

IBM PC

Apple II

Jet puts you at the controls of an F-16 Fighting Falcon, one of the most advanced tactical fighter aircraft in the world. Or you can climb into the cockpit of a carrier-based F-18 Hornet, the Navy's newest multi-role jet fighter. Both jets utilize fly-by-wire flight systems for fast, accurate response to your control input. Jet includes a free-flight non-combat mode, and offers a variety of target-strike or aerial dogfight options to test your skills under different combat conditions.

Detailed product description brochure available. Call (800)637-4983

J E T

Atari ST - \$49.95

Amiga - \$49.95

Macintosh - \$49.95

ATARI ST: Joystick optional

AMIGA: 512K memory.

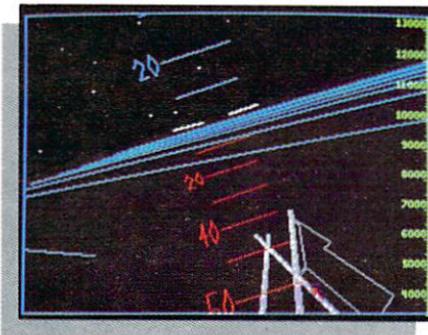

Joystick optional

MACINTOSH: 512K memory.

Joystick optional

Amiga

Amiga - Full screen window

Jet for the 68000-based computers includes all of the features previously listed, plus additional scenery areas, a combined dogfight and target-strike combat scenario, multiple window displays, and additional external aircraft and missile's eye views. A special multi-player option allows you to fly together or engage in aerial combat with other players via the modem port connector.

STEALTH MISSION

\$49.95

COMMODORE 64/128: Joystick
optional

Commodore 64/128

Commodore 64/128

Stealth Mission puts you in the pilot's seat of three different jets; an F-19 Stealth Fighter, the experimental forward-swept wing X-29, or a Navy F-14 Tomcat. Select from eight different missions and ten skill levels. Choose the most effective ordnance (from an arsenal of air-to-air and air-to-ground weapon systems) to accomplish your mission goals. A targeting computer helps you detect, track, and lock onto enemy targets. Electronic Counter-Measures protect you from land, sea, and airborne enemy threats. Stealth Mission is compatible with all SubLOGIC Scenery Disks, and includes complete VOR, ILS, ADF, and DME avionics for cross-country navigation.

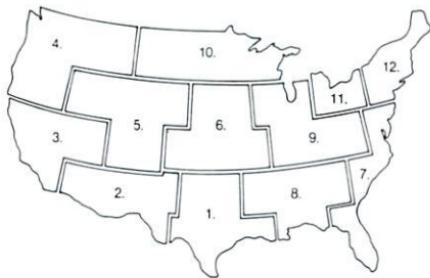

SCENERY DISKS

\$19.95 each (Disks # 1 thru # 6).

\$24.95 each (Disks # 7 thru # 12, San Francisco 'STAR', Japan, Western European Tour)

Scenery Disk # 7 - IBM PC

1. Dallas/Ft Worth Houston San Antonio Brownsville	3. San Francisco Los Angeles Las Vegas	5. Salt Lake City Cheyenne Denver	7. Washington Charlottesville Jacksonville Miami	9. Chicago St. Louis Cincinnati	11. Lake Huron Detroit
2. Phoenix Albuquerque El Paso	4. Kansas City Seattle Great Falls	6. Omaha Wichita Kansas City	8. Memphis Atlanta New Orleans	10. Billings Twin Cities Green Bay	12. Halifax Montreal New York

United States Scenery Disks

Twelve separate Scenery Disks cover the entire continental United States. Each disk covers a geographical region of the country, and includes the major airports, radio-nav aids, cities, highways, rivers, and lakes located in that region. Scenery Disks # 1 through # 6 cover the Western U.S. with the minimal amount of scenery necessary for cross-country navigation. Disks # 7 through # 12 cover the Eastern U.S. in much greater detail, and are appropriate for both visual flight (sight-seeing) and VFR or IFR cross-country flight. Each disk is available separately or as part of a specially-priced six-disk set (Western U.S. or Eastern U.S.).

SCENERY DISKS

NOTE: Scenery Disks can only be used in conjunction with Flight Simulator II, Microsoft Flight Simulator, Jet, Stealth Mission, and other SubLOGIC flight simulation programs. They are enhancement packages designed to expand the potential flying environment of these simulations. Scenery Disks are available in the following computer disk formats:

5 1/4" disk

Apple II
Commodore 64/128
Atari 800/XL/XE
IBM PC

3 1/2" disk

Macintosh
Atari ST
Amiga
IBM PS/2

San Francisco 'STAR' - IBM PC

IBM PC

San Francisco 'STAR' Scenery Disk

Designed primarily for visual flight (sight-seeing), this 'STAR' Scenery Disk covers the San Francisco Bay area in great detail. Highlights include most prominent buildings in the San Francisco - San Jose - Oakland area, Fisherman's Wharf, Alcatraz Island and prison, and the Golden Gate, Dumbarton, and Bay Bridges. All mountains and waterways are accurately located. All airports are highly detailed; many include hangers and refueling facilities. All local VOR and NDB transmitters are included.

SCENERY DISKS

Japan Scenery Disk - IBM PC

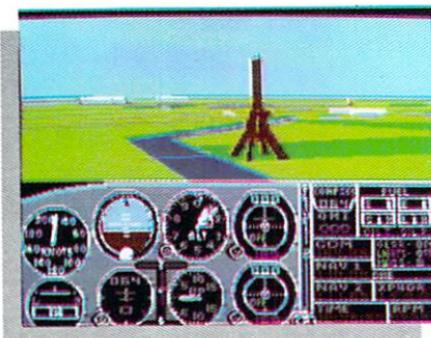

IBM PC

Japan Scenery Disk

This Scenery Disk covers the area from Tokyo to Osaka in great detail, and is appropriate for both visual flight (sight-seeing) and VFR or IFR cross-country navigation. Highlights include a highly-detailed rendition of downtown Tokyo (with Tokyo Tower, Palace grounds, and canal network), Mt. Fuji, the Shin Kansen bullet train network, and Osakajo castle. All mountains, lakes, and waterways are accurately located. All airports are highly detailed; many include towers and refueling facilities. Many VOR and NDB transmitters are available.

Detailed product description brochure available. Call (800)637-4983

SCENERY DISKS

"Western European Tour" - IBM PC

IBM PC

"Western European Tour" Scenery Disk

This disk includes highlights of several western European scenery areas, including southern England, northern France, and southern West Germany. Highlights include the Tower of London, Big Ben, Westminster Abbey, Tower Bridge, the Louvre, Arc de Triomphe, and Eiffel Tower, as well as many mountains, lakes, roads, and railroads. Detailed airports include buildings, ILS transmitters, and refueling facilities. Multiple VOR transmitters make this disk suitable for both visual flight sight-seeing and VFR or IFR cross-country navigation.

NIGHT MISSION PINBALL

Apple II - \$34.95

C64/128 - \$29.95

Atari XE - \$29.95

IBM - \$39.95

APPLE II: 48K memory required.

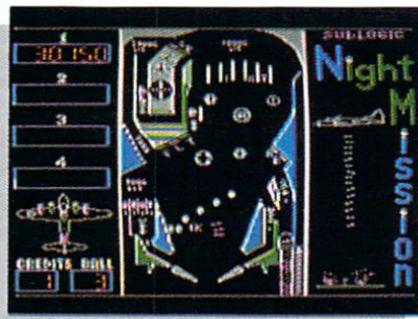

Paddles or Joystick optional

COMMODORE 64/128: Joysticks optional

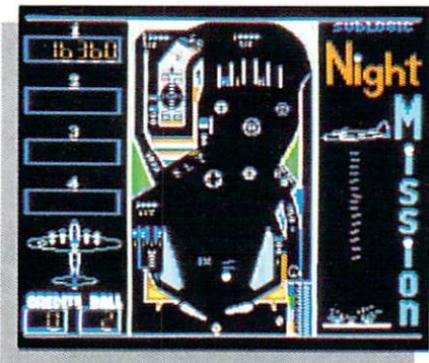

ATARI 800/XL/XE: 48K memory.

Joysticks optional

IBM PC and compatibles: 64K memory, CGA card required.
Does not support the EGA card.
Joystick optional

Apple II

IBM PC

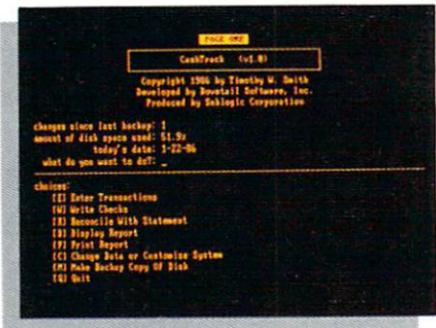

The ultimate arcade simulation program, with five bumpers, seven standup targets, nine rollovers, two spinners, and much more. Pinball comes with ten preset modes of play. Forty user-adjustable program parameters let you create and save up to one hundred custom modes of your own design.

Detailed product description brochure available. Call (800)637-4983

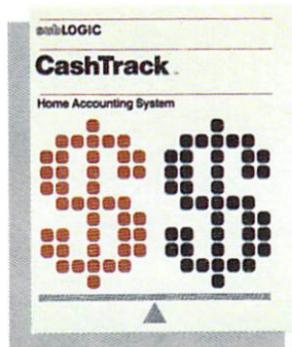

CASHTRACK

\$149.00

IBM PC and compatibles: 128K memory required to run stand-alone version.
256K required to run DOS-compatible version.
Printer optional

IBM PC

IBM PC

If slow and cumbersome program operation has kept you frustrated about using a personal computer for home accounting... Finally, an outstanding home accounting system! CashTrack redefines home accounting with an easy-flowing yet versatile accounting structure, a beautiful concept for presenting unaccounted-for-overflow, and an execution speed that makes other "home accounting" packages obsolete. Two separate versions of the program are included in the CashTrack package; a high-speed 128K stand-alone system, and an unprotected 256K PC-DOS version that can be transferred to either hard disk or 3.5" microfloppy disk for added versatility and ease of use.

Detailed product description brochure available. Call (800)637-4983

WHOLE BRAIN SPELLING

Apple II - \$34.95 each
C64/128 - \$29.95 each

APPLE II: 48K memory, color monitor required.

COMMODORE 64/128: Color monitor required.

Commodore 64/128

Whole Brain Spelling has received widespread critical acclaim from educators in the field for its new approach to the development of improved spelling skills. The program uses the graphic color capabilities of your computer to provide positive user feedback and to emphasize visual aspects of the learning process. Whole Brain Spelling is available in six different word-list categories:

GENERAL (ages 8-adult)

MEDICAL

A CHILD'S GARDEN OF WORDS (preschool-8)

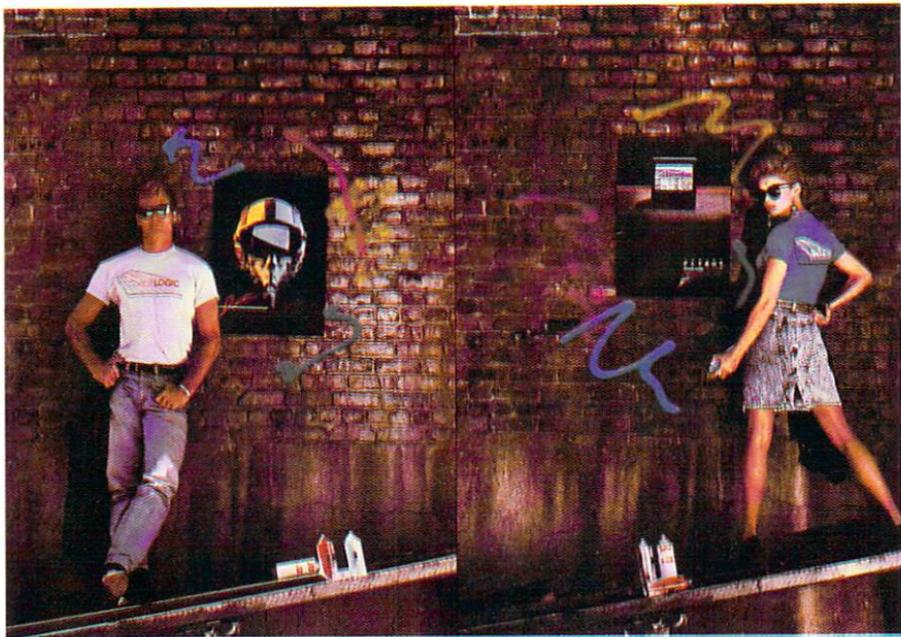

SCIENTIFIC

FAIRY TALE

BUSINESS

* COMING SOON

Ordering Information

Our Customer Information-Retrieval System is now on-line and ready to help us process your calls (customer support, information requests, product orders) very quickly and efficiently. If you want to place an order, or if you have any questions, problems, etc., please call us toll-free at (800) 637-4983. This line is open from 7:00 AM to 7:00 PM Central Time Monday through Friday. Illinois residents, please call (217) 359-8482.

For direct orders, please specify your computer system and indicate which product(s) you want. Enclose the correct amount plus \$2.00 shipping for each package ordered (\$5.00 for CashTrack), and specify UPS or first class mail delivery. Visa, Mastercard, American Express, and Diners Club charges accepted.

SubLOGIC Media Policy

SubLOGIC Corporation warrants all media for a period of three months from the date of purchase. We will replace any media that are out of warranty at a minimal charge.* SubLOGIC will extend this replacement service for a period of not less than ten years after purchase.

*Example: replacement charges as of January 1, 1988 - \$10.00 for a disk or cassette.
